

Gelusil mps®

Gelusil MPS® is an over-the-counter product, released in a form of chewable tablets, containing aluminum hydroxide, magnesium hydroxide, and simethicone as active ingredients. Aluminum and magnesium are naturally occurring minerals. Aluminum hydroxide and magnesium hydroxide are antacids. Simethicone allows gas bubbles in the stomach and intestines to come together more easily, which allows for easier passage of gas. **Gelusil MPS®** is a combined medicine used to treat heartburn, acid indigestion, upset stomach, and bloating caused by gas.

Active ingredient: Aluminium Hydroxide + Magnesium Hydroxide

Brand(s): Gelusil Mps®

Manufacturer: Pfizer

Disease(s): Heartburn / Acid Indigestion / Upset Stomach / Bloating / Gas.
