Restasis®

Restasis® - ophthalmic emulsion containing 0.05% of cyclosporine, made by Allergan, which is indicated to increase tear production in patients whose tear production is presumed to be suppressed due to ocular inflammation associated with keratoconjunctivitis sicca. Increased tear production was not seen in patients currently taking topical anti-inflammatory drugs or using punctal plugs.

Active ingredient: Cyclosporine

Brand(s): Restasis
Manufacturer: Allergan
Disease(s): Organ Rejection / Psoriasis / Rheumatoid Arthritis

Restasis® 0.05% 0.4ml

Cyclosporine eye drops

What is cyclosporine ophthalmic?

Cyclosporine is an immunosuppressant. Cyclosporine ophthalmic (for use in the eye) can increase tear production that has been reduced by inflammation in the eye(s).
Cyclosporine ophthalmic is used to treat chronic dry eye that may be caused by inflammation.
Cyclosporine ophthalmic may also be used for purposes not listed in this medication guide.

Important Information

Follow all directions on your medicine label and package. Tell each of your healthcare providers about all your medical conditions, allergies, and all medicines you use.

Before taking this medicine

You should not use cyclosporine ophthalmic if you are allergic to cyclosporine.
