Dydrogesterone tablet

What is this medicine?

DYDROGESTERONE is an orally active progestogen which acts directly on the uterus, producing a complete secretory endometrium in an estrogen-primed uterus. At therapeutic levels, dydrogesterone has no contraceptive effect as it does not inhibit or interfere with ovulation or the corpus luteum.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- undiagnosed vaginal bleeding
- thromboembolic disorders
- an unusual or allergic reaction to dydrogesterone, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. You may take this medicine with or without food. Take your medicine at regular intervals. Do not take your medicine more often than directed. Do not skip doses or stop your medicine even if you feel better except on your doctor's advice.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

If you miss a dose, take it as soon as you can. If it is almost time for your
