Company Profile

General Peripherals and Devices Technology

((Edited Jan2012))

1. INTRODUCTION

Since inception, *GPD Technology* has been committed to providing high quality products, solutions and services in the area of Information and Communications Technology (ICT) in the United Arab Emirates.

Today *GPD Technology* is a leading provider of innovative and leading-edge technologies to fulfill the needs of private and corporate customers. The company focus has been on Fleet Management Systems, Time Attendance, Access Control and both Personal and Asset Security.

We do it using the best Practice Methodologies and International Industry Standards, always in distinction with a view to attain global pride and recognition. We pay special attention to customer satisfaction, work ethics, as well as continual improvement in quality of our services

2. OUR VISION

We strive to be recognized as a pioneer player in our areas of expertise. We would like to profile ourselves as leading ICT Provider and Engineering Group to meet the high expectations of the Middle East growing economies.

3. OUR TEAMS

In *GPD Technology,* we have a team of professionals specialized in the design and installation of Fleet Management System, RFID Technology for Security and Surveillance Systems, , Access Control systems, Audio Visual Systems, Public address…

Our Engineers, Technicians and Business Developers work hand in hand to achieve the ultimate level of project execution and Customer satisfaction

GPD will help you formulate the right solution from functional spec's, to the concept design down to the level of implementation, support and training.

4. METHODOLOGY

GPD Technology offers complete end-to-end solutions with scalable performance to accommodate future growth in activity, data volumes and newer technologies.

Our approach is to provide customized *Integrated Solutions* designed by working closely with our clients to understand their needs and concerns, and provide them with:

- Adequate consultancy
- Divers alternative Solution Prototypes
- Final Solution Design
- System Integration
- Project Execution
- Project Management

5. LINES of BUSINESS

GPD Technology is actively pursuing excellence in the following domains:

- *Tracking*

  A broad range of GPS/GPRS based Solutions are at hand in various sectors of the industry: *Oil & Gas, Construction, Logistics, Military and Government.*
  Using mobile devices, our Tracking Solutions leverage the physical location to provide enhanced services in a range of applications such as: *Navigation* and *Mapping, Location Monitoring, Fleet Management, Driver/Operator Behavior, Workforce Tracking, Traffic guidance*...

    o Vehicle Tracking (Technology GPS/GPRS)
    o Fleet Management Systems
    o Vehicle Logistics & Driver Control (Web Base Software)
    o Asset Tracking
    o Location Based Services
    o ....

- *RFID Solutions*

  An RFID System consists of three components: a *Tag* (or multiple tags), a *Reader* or interrogator and the necessary supporting *Infrastructure* (Hardware & Software). The technology gives an inert object the capability of communicating. The potential for use is therefore enormous and limited only by one's imagination. Possible uses include:

    o Supply Chain Management
    o Asset Management & Product Integrity
    o Identification & Tagging
    o Travel / Ticketing / Baggage Tracking
    o Warranty Services Tracking
    o Patient Care Management
    o Animal Tracking

- *Access Control, Security & Surveillance*

    o Staff & Workers Management
    o Time Attenance Application
    o Access Control
    o Fingerprint Solutions
    o IP Based CCTV Cameras
    o Digital Surveillance
    o Alarm Systems
    o Footfall Monitoring
    o License Plate Recognition

GPD Technology is also constantly evolving into new areas of expertise such as:

    o Content Management/ Messaging & Collaboration
    o Network & Information Security
    o Business Intelligence, Analytics & Reporting
    o BPM/ Knowledge Management

6. ALLIANCES

In addition to an impressive array of in-house capabilities, *GPD Technology* has chosen to partner with leading national and international technology suppliers to provide the best in the areas of:

- **GPD Engineering SAS – Italy**: *European leader in providing specific products and solutions for Personal & Assets security, Tracking & Fleet Management System).* *(http://www.gpd-engineering.com/en/societa.asp)*

- **ACTAtek Pte. Ltd. – UK & Singapore**: *Leading Vendor of Linux web-based biometric Systems for Access Control, Time Attendance & Payroll using fingerprint and RFID Smart Card with built-in CMOS camera for precise identification* *(www.actatek.com)*

- **TrcakItMe – Dubai**: *A leading integrator for Warehouse and Asset Management with focus on RFID Technology.*

- **Multenet – South Africa**: *Offers connectivity solutions in Ethernet and wireless environments utilizing the latest technology for high quality networking and communication products. Of specific interest to our market: Telecom GPRS/ EDGE/ 3.5G Routers* *(www.multenet.com)*

- **EMK - Italy**: A *leading manufacturer of Card Reader* *(www.emk.it)*

- **Mobotix – Germany**: A *leader in Network Camera technology in a decentralized concept and a Pioneer in the area of IP based High-Resolution video systems and CCTV.* *(www.mobotix.com)*

- **CDVI** of France, **Honeywell** and others for *Access Control Solutions*

- **LaiPac** - Canada for advanced *Tracking Solutions*

7. CUSTOMERS

GPD Technology has been committed to a growing list of **clients** in the Private sector, and within Government Agencies, Universities, Oil & Gas companies and financial organizations. A specific mention goes to:

- **Gasco** (Adnoc Group): *Tracking, Fleet Management, Driver Management*

- **LeasePlan** (Transport and Fleet Rental companies): *Tracking Fleet Management*

- **Al Hosn Gas** (Adnoc Group): *Tracking, Fleet Management, Driver Management*

- **HAAD** (Abu Dhabi Heath Authority): *Tracking, Fleet Management*

- **Emirates Transport**: *Tracking, Fleet Management, Driver Management*

- **Petrofac Emirates** (ASAB Camp): *Wireless System, SMATV, Telephony System*

- **Square General Contracting** (Magenta Camp): *Camp Management/ Access Control/ Time Attendance/ CCTV…*

- **Four N Properties** (Al Salam Living City): *Control of Access to the City with Turnstiles.*

- **NCC / Al Raha International** (Yas Island): *Fully Integrated Camp Management/ Access Control/ Time Attendance/ CCTV… Comprehensive custom built Software for Facilities Management, Worker Management and Card production*

- **Al Nasser Properties (Falcon City):** *CCTV and Access Control*
- **Avis Rent-a-Car:** *Car Tracking and Fleet Management System*
- **El-Diar Furniture:** *Access Control and Time Attendance with customized HR & Payroll Application System*
- **Spelco Electrical Works:** *Car Tracking & Fleet Management*
- **Bank of Beirut & Arab Countries:** *ICT Infrastructure*
- **Dutch Foundation:** *Car Tracking & Fleet Management*
- **Premier Financial Broker:** *CCTV Surveillance System*
- **ADSECC (Security Consulting Centre):** *Car Tracking*
- A number of other Customers: **ICS & Elite Schools** for *CCTV, Mobile CCTV for Buses and Canteen Management,* **VIBES** Event Organizers for *Staff Data Base....*
