Amiodarone Hydrochloride tablet

What is this medicine?

AMIODARONE is an antiarrhythmic drug. It helps make your heart beat regularly. Because of the side effects caused by this medicine, it is only used when other medicines have not worked. It is usually used for heartbeat problems that may be life threatening.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- liver disease
