Naltrexone Hydrochloride tablet

What is this medicine?

NALTREXONE helps you to remain free of your dependence on opiate drugs or alcohol. It blocks the 'high' that these substances can give you. This medicine is combined with counseling and support groups.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- if you have used drugs or alcohol within 7 to 10 days
- kidney disease
- liver disease, including hepatitis
- an unusual or allergic reaction to naltrexone, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a full glass of water. Do not take this medicine within 7 to 10 days of taking any opioid drugs. Take your medicine at regular intervals. Do not take your medicine more often than directed. Do not stop taking except on your doctor's advice.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?
