Sucralfate tablet

What is this medicine?

SUCRALFATE helps to treat ulcers of the intestine.

What should my health care professional know before I take this medicine?

They need to know if you have any of these conditions:

- kidney disease
- an unusual or allergic reaction to sucralfate, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I take this medicine?

Take this medicine by mouth with a glass of water. This medicine works best if you take it on an empty stomach, 1 hour before meals. Take your doses at regular intervals. Do not take your medicine more often than directed. Do not stop taking except on your doctor's advice.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.
