Dutasteride capsule

What is this medicine?

DUTASTERIDE is used to treat benign prostatic hyperplasia (BPH) in men. This is a condition that causes you to have an enlarged prostate. This medicine helps to control your symptoms, decrease urinary retention, and reduces your risk of needing surgery.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- liver disease
- prostate cancer
- an unusual or allergic reaction to dutasteride, finasteride, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I take this medicine?

Take this medicine by mouth with a glass of water. Do not cut, crush, chew or open this medicine. You can take this medicine with or without food. Take your doses at regular intervals. Do not take your medicine more often than directed. Do not stop taking except on your doctor's advice.

Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed.

Overdose: If you think you have taken too much of this medicine
