Chattanooga family practice

At The Nest Family Wellness, we're more than just healthcare providers — we're your partners in health. Located in Chattanooga, with convenient offices in Hixson and Ooltewah, we offer compassionate, personalized care that empowers you to achieve your wellness goals. Our dedicated team focuses on treating the whole person, addressing your physical, mental, and emotional wellbeing. Whether you need a routine check-up, support in managing your chronic disease, or seek mental health support, we're here to listen and provide care tailored to your needs. Schedule your appointment today to start your journey towards whole-body wellness. Dr. Avitabile is board-certified by the American Academy of Family Physicians. His patients and his peers regard him for his extensive knowledge of and focus on diabetes. He's passionate about the well-being of his patients and believes in treating them like they're his own family. Dr. Avitabile has the privilege of sharing his love for medicine with his family. His wife of nearly 30 years is the practice manager at RiverCity Family Medicine, PLLC, and works alongside him daily. Together, they have four amazing children and one beautiful grandchild, and they look forward to having more grandchildren in the future. Their children have followed in their footsteps, with their third child in medical school and their youngest on the undergraduate pre-med path. Dr. Anthony Avitabile is a top family doctor in Chattanooga, Tennessee, and has extensive experience with family care, diabetes, insulin resistance, and hypertension. Proudly created with Wix.com Sheree is a board-certified Physician Associate with experience in primary care, urgent care, sleep medicine, and training in internal medicine, gynecology, general surgery, psychiatry, pediatrics, and endocrinology. She completed undergraduate studies at the University of Georgia in 2003 and, after several years in medical sales, completed Masters of Science in Physician Assistant Studies at the University of the Cumberlands in 2015. Sheree is a native of the Chattanooga area and honored to have the opportunity to serve this community. Outside of work, she is happiest spending time with her husband and daughter and enjoys cooking and generally learning more about diverse cultures and cuisines. Sheree works under the supervision of Dr. Monique Golding. Amanda grew up in West Virginia and Florida before moving to Tennessee with her husband and children in 2004. She has over 25 years of experience in Critical Care Nursing, and traveled to NYC to help in the ICU for the initial Covid Surge in 2020. She worked the Covid Crisis surges in Georgia, California, New York, and the United States Virgin Islands. She later responded to the Pediatric RSV surges in California and New York. Amanda graduated with a Master of Science in Nursing from Walden University. She is licensed with the AANP for Family Practice and licensed in Tennessee as an Advanced Nurse Practitioner. Amanda is under the supervision of Dr. Christina Oskins. Chattanooga Family Practice offers you the ability to pay your invoice online. Proudly created with Wix.com Novel Coronavirus (COVID-19) Information Chattanooga Family Practice is closely monitoring all developments with COVID-19, and our staff is following the latest guidance from local and state health officials as well as the Centers for Disease Control and Prevention (CDC). The safety of our patients, employees, and physicians remains our highest priority. In response to the CDC guidelines for Social Distancing, please do not bring anyone with you into the office unless you need assistance. To help prevent the spread of illness: Do not go to the emergency room or urgent care unless symptoms are severe, such as high fever, shortness of breath, or difficulty breathing. Emergency rooms need to be able to serve those with the most critical needs. If you have milder symptoms like cough, low-grade fever, or other respiratory problems, contact your regular provider first. Stay home when sick and call us to schedule a Telehealth appointment. Practice excellent personal hygiene habits, including handwashing, coughing into tissue or elbow, avoid touching eyes, nose, or mouth. Stay informed via public health updates as information is changing frequently. We are seeking seven positions in the Match for the 2022-2023 recruiting season. We offer a curriculum that includes Lifestyle Medicine and are working on a Rural Track within our program as well. Technology enhances the overall educational experience. The conference room utilizes a built-in data projector and computer for multimedia presentations. Erlanger wireless internet access is available throughout the center. Practice management is augmented with computerized appointments and search software for ICD/CPT codes. As part of the Erlanger Medical Group, the UT Family Practice Center uses EPIC as the electronic health record system for both outpatient and inpatient care. The UT Family Practice Center is a 36,000 square foot state of the art facility that opened Spring 1997. Located just across the street from Erlanger Medical Center this is the central point for all our residency functions. The patient care areas include: 24 exam rooms, two large procedure rooms, fetal evaluation suite, ultrasound suite, and dictation areas in the exam halls, lab, and xray. The academic areas house resident and faculty offices, our Family Practice Center Library, and a large conference room with adjacent kitchen. The business area of the Center consists of medical records, staff lounge, locker room, and several administrative offices, which house our office manager and billing specialists. Overall the Family Practice Center provides a comfortable, spacious environment equipped to teach the full spectrum of Family Medicine. View the UT Family Practice Center interactive map. Donate to the Family Medicine Gift Fund for the UTCOMC campus. At Chattanooga Family Practice, we are highly committed to offering high quality care to the Chattanooga community.
