Ampangorina is the main village and administrative center. The island attracts significant ecotourism, thanks in part to its black

The bridge carries two tracks of Amtrak's Northeast Corridor and one freight track between Astoria, Queens, and Port Morris, Bronx, via Randalls and Wards Islands. Its main
span is a 1,017-foot (310 m) steel through arch across Hell Gate, a strait of the East River that separates Wards Island from Queens. The New York Connecting Railroad began construction of the bridge in 1912, and it opened in 1917. The main span, a two-hinged arch flanked by stone towers on either bank of Hell Gate, was the world's longest steel
