Free 2D Shape Coloring Book - Shape Coloring Pages For Preschoolers Learn about shapes with these shape coloring pages. This FREE printable shape coloring book will teach your children to recognize simple 2D shapes! Click through to grab your free book. Fun Shape Coloring Pages for Kids Shapes are all around us and your child interacts with them daily. They build with the rectangle and square blocks. They watch parents cut a pizza into triangles and move the wheels of a car round and round. Why not build on that informal learning with something a little more structured? Most kids love to make small books, so we've created a cute shape coloring workbook. It is designed for early learners who are just beginning to recognize and learn their shapes. Learning about shapes encourages the development of early math skills that will benefit your child in Kindergarten. This activity would pair well with our free 2D shapes worksheets. WHAT'S INCLUDED IN THE PRINTABLE SHAPES COLORING PAGES? The spring printable coloring pages and workbook introduces children to 5 basic 2D shapes. Circle Square Triangle Rectangle Hexagon Each of the above basic shapes have two pages. The first includes a friendly-looking shape character, a shape to trace, and a picture of a real-life object that is the same shape. It also includes the shape name that children can trace over. The shape is introduced with a short that follows the same pattern, so it is easy to read. The second page invites the child to draw the shape. Kids will be working on early math skills, shape recognition, and will have the opportunity to trace and draw the shape. The pages are black and white so that you do not need a color printer. SUPPLIES NEEDED FOR THESE SHAPE COLORING PAGES Free printable shape coloring book file (below) Printer Copy Paper Stapler Crayons Paper cutter pencils PREPARATIONS This activity is simple to prep, here's how: Get and print the resource (below) Cut each page in half Stack the pages with the cover on top Staple along the left-hand side of the book. Note: when printing the pages and workbook, select the fit option (rather than the actual size.) You'll find these settings in the printer window, where you can select the size. WHERE TO GET THE SHAPES COLORING BOOK USING THE SHAPE COLORING PAGES Now that the books are made, it's time for some one-on-one learning with your child Slowly read through the pages together. Invite them to help you count the number of sides of each shape and see how many corners or points you can find. Encourage your child to color the simple shapes, characters and real-life objects. Then trace over the shape and work together to fill the blank page with the shape. How many rectangles/squares/ circles can you draw? Can you draw different sizes? You can use different colors when drawing different shapes on the shape coloring sheets. If you have time, you could go on a shape hunt around the house. How many of the shapes can you find? Keep the learning light and fun. It may take your child a while to learn their shapes. This is not a reflection of their intelligence. It takes a while to build the pathways in the brain and that happens at a different pace for every child. Make a point of revisiting the book often. It is a fun refresher and children love reading their own books. If you want to learn more about diamonds, cylinders, cones, ovals, spheres, octagons, pyramids, pentagons, rhombus, and cubes then we have so many other fun shapes activities to work through. Shapes and colors printables have been a key part of our early learning routine for years. As a homeschool mom, I've found that hands-on activities like these make it easier for kids to learn shape recognition, color names, and early math concepts. Whether we're working on color by number worksheets or tracing 2D shapes, these printables keep learning fun and low-pressure. This collection includes our favorite free shapes and colors printables for preschool and kindergarten—perfect for home or classroom use. From seasonal coloring pages to shape-based pattern practice, these worksheets are simple to prep and ready to go. Introduce color recognition and early math with themed coloring pages, color-by-number activities, and printable color games. Use simple activities to help kids identify, trace, and color 2D shapes. Reinforce specific color knowledge through focused worksheets. The color purple worksheet focuses on identifying and using one specific color, great for color-themed learning days. The my favorite color worksheet invites kids to choose their favorite color and explore it through drawing, writing, and coloring—great for self-expression and early writing practice. Reading together is one of the best ways to reinforce what kids are learning through printables. These are some of our favorite picture books that explore colors, shapes, and patterns in creative and engaging ways. These titles pair well with hands-on activities and give kids another way to see how math and art show up in the world around them. Last Updated on 6 May 2025 by Clare Brown Shapes coloring pages are a fun way for kids to get creative as well as learn. It includes simple geometric shapes such as circles, squares, triangles, rectangles, stars, hexagons, and hearts. These coloring pages help children strengthen their fine motor skills and color awareness while also teaching them fundamental math concepts.Shapes coloring pages may also have thematic graphics, such as animals, automobiles, or objects, which incorporate shapes into recognizable surroundings. Shape coloring pages are ideal for preschool and early elementary levels, encouraging inventive expression and providing hours of constructive and engaging fun at home or in the classroom. Shapes are one of the first concepts children learn in early math, and using shapes coloring pages is a fantastic way to reinforce that knowledge in a fun and hands-on way. Coloring shapes helps kids recognize geometric forms, understand symmetry, and develop visual discrimination. These printables also support fine motor development and hand-eye coordination, making them ideal for preschool and kindergarten classrooms or at-home learning. Printing our free shapes coloring pages is super simple! Click the coloring page that interests you On the next page, click the orange "Print" button.
