Triamcinolone tablet

What is this medicine?

TRIAMCINOLONE is a corticosteroid. It helps to reduce swelling, redness, itching, and allergic reactions. This medicine is used to treat allergies, arthritis, asthma, skin problems and many other conditions.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- depression, anxiety, or psychotic disturbances
- diabetes
- infection, like tuberculosis, herpes, or fungal infection
- liver disease
- osteoporosis
- previous heart attack
- seizures
- stomach or intestine disease
- thyroid disease
- an unusual or allergic reaction to triamcinolone, corticosteroids, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. Take with milk or food to avoid stomach upset. For best results, take this medicine at or about 8:00 in the morning. Take your medicine at regular intervals. Do not take
