Loratadine tablet

What is this medicine?

LORATADINE is an antihistamine. It helps to relieve sneezing, runny nose, and itchy, watery eyes. This medicine is used to treat the symptoms of indoor and outdoor allergies. It is also used to treat itchy skin rash and hives.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- asthma
- kidney disease
- liver disease
- an unusual or allergic reaction to loratadine, other antihistamines, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a glass of water. You may take this medicine with food or on an empty stomach. Take your medicine at regular intervals. Do not take your medicine more often than directed.

Talk to your pediatrician regarding the use of this medicine in children. While this medicine may be used in children as young as 6 years for selected conditions, precautions do apply.

Overdose: If you think you have taken too much of this medicine
