Piroxicam capsule

What is this medicine?

PIROXICAM is a non-steroidal anti-inflammatory drug (NSAID). It is used to reduce swelling and to treat pain. It may be used to treat osteoarthritis and rheumatoid arthritis.

What should my health care professional know before I take this medicine?

They need to know if you have any of these conditions:

- asthma, especially aspirin sensitive asthma
- coronary artery bypass graft (CABG) surgery within the past 2 weeks
- drink more than 3 alcohol containing drinks a day
- heart disease or circulation problems like heart failure or leg edema (fluid retention)
