## Sildenafil Citrate tablet (Viagra®)

### What is this medicine?

SILDENAFIL CITRATE is an oral medication for erectile dysfunction (ED). It helps most men with ED improve their erections.

### What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- eye or vision problems, including a rare inherited eye disease called retinitis pigmentosa
- heart disease, angina, high or low blood pressure, a history of heart attack, or other heart problems
- kidney disease
- liver disease
- stroke
- an unusual or allergic reaction to sildenafil, other medicines, foods, dyes, or preservatives

### How should I take this medicine?

Take this medicine by mouth with a glass of water. The dose is usually taken 1 hour before sexual activity. You should not take the dose more than once per day. Do not take your medicine more often than directed.

Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once.

NOTE: This medicine is only for you. Do not share this medicine with others.
