Ribavirin capsule

What is this medicine?

RIBAVIRIN is an antiviral medicine. It is used with peginterferon alfa to treat hepatitis C. It will not work for colds, flu, or other viral infections.

What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- cancer
- blood disease like sickle-cell or thalassemia
- diabetes
- drug abuse or addiction
- heart disease
- history of depression, anxiety
- immune system problems
- kidney disease
- low blood counts, like low white cell, platelet, or red cell counts
- lung or breathing disease, like asthma
- man with a partner who is pregnant or trying to get pregnant
- other liver disease
- thyroid disease
- an unusual or allergic reaction to ribavirin, interferons, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
- breast-feeding

How should I use this medicine?

Take this medicine by mouth with a full glass of water. Take with food. Take your medicine at regular intervals. Do not take your medicine more often than directed. Take all of your medicine as directed even if you think you are better. Do not skip doses or stop your medicine early. Talk to your pediatrician regarding the use of this medicine in children. Special care may be needed. Overdosage: If you think you have taken too much of this medicine contact a poison control center or emergency room at once. NOTE: This medicine is only for you. Do not share this medicine with others.

What if I miss a dose?

If you miss a dose and remember the same day, take it as soon as you
