## Sevelamer Hydrochloride tablet

### What is this medicine?

SEVELAMER is a polymer. It binds phosphates in the stomach and prevents them from being absorbed into the body. This medicine is used in patients with chronic kidney disease on dialysis to prevent dangerous increases in phosphates.

### What should I tell my health care provider before I take this medicine?

They need to know if you have any of these conditions:

- difficulty swallowing
- bowel obstruction
- stomach surgery or disorder
- an unusual or allergic reaction to sevelamer, other medicines, foods, dyes, or preservatives
- pregnant or trying to get pregnant
